ESIC is a member of AACSB International—the Association to Advance Collegiate Schools of Business.

The quality of our programs is endorsed by national and international accreditations and certifications:
ESIC systematically appears in most well-known international rankings of business education. This provides an external and objective recognition of the School’s training quality over the last 50+ years.

**Latest positions in rankings:**

**Bloomberg Business Week ranking of Best Business Schools 2017**
ESIC’s International MBA (IMBA) appears in the 27th position among International MBAs.

**QS Global 250 Business Schools 2017**
ESIC is positioned 29th among 492 higher education institutions for Graduate Business Studies in the world.

**QS Return on Investment 2015**
ESIC’s MBAs stand out among 46 European MBA programs in this ranking; they appear in the top position in two of the six categories, ‘employment within 3 months of graduation’ and ‘shortest payback period’. They also appear within the top 15 in most of the categories, and first in Spain in all areas except two in which it appears second and third. Details of key categories follow:
- Employed within 3 months of graduation, position 1
- Shortest payback period, position 1
- 10-year Return on Investment, position 8
- 20-year Return on Investment, position 8
- Fostering entrepreneurship, position 11
- Salary uplift, position 15

**QS Global 100 EMBA Ranking 2017**
ESIC’s EMBA appears in this ranking of the top 100 EMBAs in the world, occupying the 29th position in Europe.

**Poets & Quants 2017**
ESIC has been recognized as the 61st best business school in the world delivering International MBA programs within the new edition of the “International MBA programs 2017” ranking. Among European business schools, ESIC is ranked in the 34th position.

**America Economia MBA Global 2017**
ESIC’s MBAs appear 18th in the ranking of the best 49 programs for Latin American students.

**CNN Expansion Ranking of the top international MBA programs 2018**
The MBAs from ESIC are included in the elite of 71 international programs, occupying the 42nd position in MBA.

**Merco Talent & Companies report 2017**
ESIC appears in the 3rd position in education among the 5 most renowned Spanish Business Schools in the 2017 version of this ranking which measures the reputation and talent development of companies. In the same ranking, ESIC appears in the 72th position among the top 100 companies with the strongest reputation in Spain (2017).

**El Mundo 2017 ranking of graduate programs**
ESIC’s Master in Marketing, Master in Advertising and Public Relations, Master in Human Resources and Organizational Development, and Master in International Trade & Business have been ranked in the top positions of their categories by El Mundo since 2012.

**Youth Incorporated Global B-School Rankings 2017**
ESIC is ranked within the top 100 MBAs in the world, and more importantly within the top 50 for Marketing (Master in Marketing Management, MIM), Finance (Master in Finance, MDF), and for the Executive MBA (EMBA), MDF y Executive MBA, EMBA.
It has been over 20 years now, from the very moment the digital world took its first timid steps, that ESIC Business & Marketing School intuited the immense possibilities in, and the enormity of, the revolution that was before us. And it decided to lead, through ICEMD.

That is why ICEMD – ESIC’s Institute of the Digital Economy – is much more than a commitment to the training in all the skills and capacities necessary in the digital environment.

The central axis of the Digital Transformation of Organizations resides in the interaction between digital technologies, digital management and digital marketing. The key to success is in knowing how to manage the impact of this interaction on the stakeholders of a company, on the company’s processes and on its business model. The training provided by ICEMD, ESIC Business & Marketing School’s Institute of the Digital Economy, covers all the skills and capacities that students, professionals, executives and entrepreneurs will need to confidently implement the digital transformation of their organizations.

More than 2,500 students are trained each year at the Institute. They are the ones who truly make ICEMD today, the largest source of digital talent in Spain and they are also, with their acquired know-how, the ones who are the protagonists in a changing world that is shaking the very foundations of everything learned up to now. This is one of the reasons we have become a reference in Europe in the field of digital education and one of the principal institutions to which organizations come to select their specialized professionals.

Certainly a consequence of all this are the more than 500 professionals, all of them renowned experts in their fields and an active part of the aforementioned digital transformation, who teach in the more than 100 face-to-face, online or in-company training courses.

Over these past 20+ years we have seen and contributed to a change in the world of business, the economy and communications. Our aim is to continue playing an active role and being an engine vis-à-vis this exciting challenge by placing in the market professionals who can turn their companies into machines that are perfectly connected to and aligned with the challenges and possibilities of the digital ecosystem.

ICEMD – The Institute for the Digital Economy of ESIC Business & Marketing School – is the only institute in Spain certified to award its students with Pan-European Industry qualifications granted by FEDMA (Federation of European Data Driven Marketing) in Brussels. We are certified to award Pan European Certificates and Diplomas in Digital Marketing, Digital Business, Relationship Marketing, Customer Experience Management and Customer Service Management.

We were digital natives; now we can be whatever need to be, come what may.
The Master in Digital Marketing is one of the first digital marketing trainings in Europe. This practice-driven programme provides participants with the necessary skills and knowledge to become a highly competitive professional in any marketing and business environment.

The MDM delivers a practical understanding of the key pillars around the implementation of a digital marketing strategy and how an effective strategic vision can bring significant value to a company. By managing and analyzing data participants develop, throughout the programme, a clear solid performance during the decision-making and problem-solving process.

A further objective of this program is to create the opportunity of learning and working with like-minded professionals, networking, and developing cross-cultural awareness. Graduates from the MDM are equipped with a global vision and enough capabilities to become future online marketing managers and executives at national or international companies.

**Madrid and Barcelona**

Spain is home to seven of the FT Global 500 companies and six of the Euro Stoxx 50. In addition, the country offers the opportunity to develop and strengthen business links with China and Latin America thanks to its close relationship with these regions. Madrid and Barcelona are cosmopolitan cities of great cultural and historical interest. They are also among of Europe’s most important cities and major business and financial centre.
Learn, integrate, apply and critically evaluate core concepts and tools in the digital marketing discipline to develop innovative strategies in order to address current and emerging business problems, as well as key analytical methods to design, implement and optimize digital marketing strategies.

Develop a holistic view of the digital marketing discipline and its applications in the company; also, learn to critically assess digital marketing aspects of local and global business contexts as an input on current and emerging business decisions.

Develop the skills to critically assess your own and team performances and propose strategies for improvement; develop the skills to operate in different social and cultural environments.

Recognise the role of human and ethical values in business; develop action plans that demonstrate awareness of broader trends and demonstrate written communication skills essential in business and other settings.

Demonstrate effective use of the communication skills that are essential in business and other settings as well as determine effective use of inter-personal skills and the drive to work independently needed in business and other settings.
MDM
Structure of the Program

Two unique options to strengthen the participants’ professional development

Participants should choose between one of the following two options* to complement their professional development:

The International Business Experience in London
The International Business Experience strengthens participants’ academic and professional development by enriching their profile with first-hand contact with the British business, university, and sociocultural environments while supporting the development of an international network. CIM - The Chartered Institute of Marketing - is the leading international professional marketing body and it is located in London, the world’s most international city and one of Europe’s centers of innovation. The trip, which lasts around four days, includes visits to British international companies, seminars, and conferences from British businesswomen/men and lecturers; as well as meetings with peers to explore joint opportunities and visits to cultural and historic sites. The program will help you dive in to innovation using a real-world challenge, generate ideas in collaboration with others and build prototypes that lead to business solutions; as well as, provide you with a global international approach with in-depth experience in the British business marketplace.

The Professional Graduate Studies Diploma
Upon the successful completion of a complementary program and corresponding examinations, participants will also receive the “Level 7 Professional Graduate Studies Diploma in Marketing” from the Chartered Institute of Marketing (CIM, www.cim.ac.uk), the world’s largest organization of professional marketers with over 40,000 members worldwide. It is a unique combination of a marketing degree plus a professional qualification and gives graduates a distinct competitive edge for their future professional development based on both academic knowledge and practical orientation. Level 7 Professional Graduate Studies Diploma in Marketing is a challenging, high-level marketing qualification and it is recognised at Master’s level equivalent by the Scottish Credit and Qualifications Framework and the Open University in the UK, using the UK higher education benchmarks. The Professional Graduate Studies Diploma in Marketing is also recognised in the European Union by the European Qualifications Framework.

(*) Included in the fees, unless the two options are chosen together for which extra fees apply.

The MDM at a Glance

Diplomas awarded upon completion

“Master in Digital Marketing” from ESIC Business & Marketing School.

“European Diploma in Digital Marketing” from FEDMA - Federation of European Direct & Interactive Marketing.

Teaching methods

Student-centered learning guided by educators, tutors, and mentors to understand, practice, reflect, and apply both subject-specific knowledge and transferable skills. The aim is to create a virtuous cycle of action-feedback-analysis-action for participants. All teaching is delivered in English.

Individual Final project

The final project gives participants the opportunity to apply the knowledge and experience acquired during the program.

There are three options:
- A full business plan
- A marketing plan + a semester abroad in one of ESIC’s partner institutions
- A marketing plan + 6-month internship/project in a company*

*(the latter subject to availability for non-Spanish speakers).

Student profile

Professionals and graduates from different disciplines who aim to work as digital (marketing) managers in international contexts.

Entrepreneurs intending to work in digital and international markets. And all those interested in learning how to manage an international digital business successfully.

Virtual classroom

*Subject to change*
Possible destinations to complete the studies

(Different options at each destination, see final project)
There are around 100 carefully selected international options for you to personalize your MDM experience.
ICEMD promotes activities aimed at encouraging entrepreneurial behaviors. These are based on the recognition of the value of business networking and self-employment.

ICEMD Entrepreneurs’ services:

**Training**
Extensive training, designed to discover the stages within the development of a new digital project.

**Investor Meeting**
ICEMD Investor Meeting facilitates access to funding to students and alumni for projects. The business proposals are presented to ICEMD’s Entrepreneurship Committee; the outstanding projects will be selected.

**Mentoring**
Access to ICEMD’s pool of talent in the digital economy. Renowned professionals will mentor you through the process of setting up a digital project.

**Networking**
Digital entrepreneurship meetings for ICEMD and ESIC’s students and alumni that help participants to get first-hand exposure to the challenges and keys in start-ups.
Encouraging entrepreneurship

ESIC Entrepreneurship Center provides the environment, facilities, support, and advice for participants to develop their business ideas.

Around 7% of MBA graduates start their own business at graduation which places ESIC in the 1st position in Spain and 11th position in Europe in the creation of companies, according to QS.
Conditions and special promotions in training programmes.

Lifelong learning & Networking.

Access to more than 200 articles, interviews, cases...
