Deadline: 16th December 2019. Original manuscripts must be sent to: esicmarket@esic.edu following submission guidelines at <http://esic.edu/esicmarket>

Summary

During the last years, important investments have been done oriented to the development of organizational, legal, technological and social mechanisms aimed to facilitate entrepreneurial initiatives. There is interesting research that analyzes the role that different mechanisms that are part of the entrepreneurial ecosystems play in economic, social and environmental value creation.

This special issue is focused in the analysis of the impact of different mechanisms that enhance entrepreneurial initiatives and that are part of the entrepreneurial ecosystem. Special interest is paid to the economic, social and environmental creation of value promoted by the deploying of these mechanisms in the different contexts where they are used. Contributions in this field of are encouraged.

Potential topics, but not exclusively closed to them are:
