

# HOW TECHNOLOGY CAN CHANGE EDUCATION

Almost 75% of teachers believe that digital learning will eliminate paper textbooks by 2020.

How will it do that? Through:

Artificial Intelligence,  
personalising studies

1

Augmented  
Reality/Virtual Reality,  
helping teachers to create  
any classroom experience

2

XR, creating new  
environments

3

Immersive  
learning

4

5

Gamification, simplifying  
learner-computer interaction

6

Internet of Things (IoT)

7

Chatbots

8

Learning  
Videos
